## Example 2:

In one day the National Civil Rights Museum in Memphis, TN, admitted 321 adults and children and collected $\$ 1590$. The price of admission is $\$ 6$ for adults and $\$ 4$ for children. How many adults and how many children were admitted to the museum that day?

Unit 1: $\qquad$

Unit 2: $\qquad$

There were $\qquad$ adult tickets and $\qquad$ children tickets sold

Practice: You are selling tickets for a high school play. Students tickets cost $\$ 4$ and general admission tickets cost $\$ 6$. You sell 525 tickets and collect $\$ 2876$. How many of each type of ticket were sold?
$\qquad$ general tickets and $\qquad$ student tickets sold
